Update Instructions:

Update Scanning Suite

Prior to updating the tool, the Scanning Suite PC software must be updated to version 4.0. There are two methods available to update Scanning Suite.

Method 1:

Note: A previous version of Scanning Suite must be installed on the PC to use this method.

1. Open the Scanning Suite software by clicking the **Mac LaunchPad** icon.
2. Click the **Setup** button.
3. Click the **Check for Scanning Suite Update** button.
4. Wait while the new version of Scanning Suite is downloaded. This may take several minutes.
5. Once the software is downloaded to your PC, the installation will begin.
6. Follow the prompts to install Mac Tools Scanning Suite 4.0

Method 2:

1. Go to <http://www.mactoolsdownloads.spx.com/>

Note: Please type the above address into the internet browser address bar (not the internet search box).

2. Click the Mac Tools Scanning Suite 4.0 link and save the file to your PC
3. After the file is downloaded, double click the icon to begin the installation
4. Complete the installation as prompted

Prepare the ET1505AN Mac TaskConnect™ Scan Tool

1. Plug the ET1505AN Mac TaskConnect™ into the USB port on your PC via the provided USB cable.
2. Arrow down to System Setup and press ENTER, then arrow down to Program Mode and press ENTER.

Update the ET1505AN Mac TaskConnect™ Scan Tool

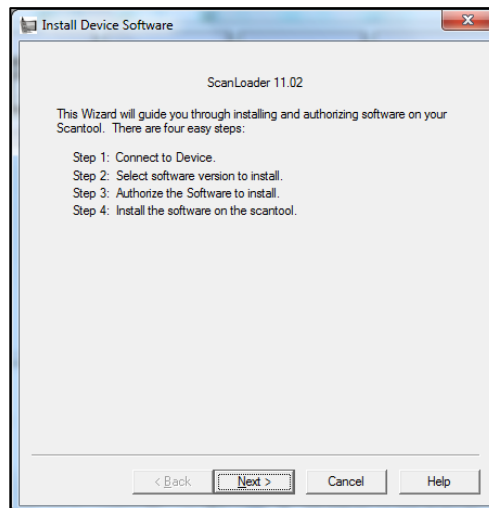

1. Open Scanning Suite on the PC by **double clicking** the **Mac LaunchPad** icon on your desktop or find it in **Start/Programs/Scanning Suite/Mac/LaunchPad**.

2. Click the **Tool Update** button.

3. The ScanLoader application will open. Click **Next** to continue and follow the instructions as prompted on the screen.

4. The update will complete and the tool will display Success. You may now disconnect the tool and close the Scanning Suite application.
